Capitalism And The World Economy

Capitalism is an economic system  
where private entities own the factors  
of production. The four factors are  
entrepreneurship, capital goods,  
natural resources, and labor. 1 " The  
owners of capital goods, natural  
resources, and entrepreneurship  
exercise control through companies.  
Individuals own their labor. The only  
exception is slavery, where someone

Page of 111 Abstract Capitalism is defined here by the universal concept of private property, independent of time and geography, in purely economic terms, free from political ideology. Capitalism thus defined is antithetical to socialism, for which a metric has been introduced by the size of government measured as government total expenditure relative to gross domestic product.
