Southwestern archaeology has long been fascinated with the scale and frequency of movement in Pueblo history, from great migrations to short-term mobility. By collaborating with Pueblo communities, archaeologists are learning that movement was—and is—much more than the result of economic opportunity or a response to social conflict. Movement is one of the fundamental concepts of Pueblo thought and is essential in shaping the identities of

contemporary Pueblos. The Continuous Path challenges archaeologists to take Pueblo notions of movement seriously by privileging Pueblo concepts of being and becoming in the interpretation of anthropological data. In this volume, archaeologists, anthropologists, and Native community members weave multiple perspectives together to write histories of particular Pueblo peoples. Within these histories are stories of the movements of people, materials, and ideas, as well as the interconnectedness of all as the Pueblo people find, leave, and return to their middle places. What results is an emphasis on historical continuities and the understanding that the same concepts of movement that guided the actions of Pueblo people in the past continue to do so into the present and the future. Movement is a never-ending and

least 90 percent of whom were Native Hawaiians—were sent to Molokai ' s remote Kalaupapa peninsula because they were believed to have leprosy. Unwilling to accept the loss of their families, homes, and citizenship, these individuals ensured they would be accorded their rightful place in history. They left a powerful testimony of their lives in the form of letters, petitions, music, memoirs, and oral history interviews. Kalaupapa combines more than 200 hours of interviews with archival documents, including over 300 letters and petitions written by the earliest residents translated from Hawaiian. It has long been assumed that those sent to Kalaupapa were unconcerned with the world they were forced to leave behind. The present work shows that residents remained actively interested and involved in

In 1997 Kalaupapa residents advocated at the United Nations together with people affected by leprosy from around the world. This book presents at long last the story of Kalaupapa as told by its people.
