Diverse Similarity by Sharon Rose. Is the first book in a new sci-fi series. Though it could easily be called the first two. The book is in two parts that feel like complete stories in their own right. Each part has a compelling plot and a character development arch. Diverse Similarity is a cerebral sci-fi story. Much like the Star Trek franchise.

Real values of a similarity index must be evaluated relative to the expected maximum value of that index, which is the value obtained for samples randomly drawn from the same universe, with the diversity and sample sizes of the real samples. It is shown that these expected maxima differ from the theoretical maxima, the values obtained for two identical samples, and that the relationship between expected and theoretical maxima depends on sample size and on species diversity in all cases ...
