Nursing Scheduling Guidelines - engineeringstudymaterial.net
Aim: To describe a pilot project on self-scheduling (self-rostering) for hospital nurses and assess its potential values and difficulties in implementation. Background: Self-scheduling is one aspect of the effort to make the hospital nursing environment more accommodative of nurses' lives. It is part of the good employment practices that nurses want and that can help recruitment, retention and--possibly--patient care.

Nursing Scheduling | Free Scheduling Software from Intrigma
The emerging profile of nurse expectations around scheduling includes greater flexibility than in the past and an understanding that one size scheduling does not fit all.2Nurses need responsive, flexible and innovative schedules that allow a female-dominated workforce to balance home and working lives and to meet unpredictable family care needs.3Additionally, as nurses age, experienced nurses need to be supported to work part time, rather than transferring to casual or leaving hospital nursing.4

Innovative Scheduling Practices Resource Guide
In today's world, with people involved in multiple tasks, it is hard to remember even the simplest of things. In that case the shift schedule templates can be put to good use. One of the many form is the nursing schedule template where the various shifts of the nursing duties can be recorded and used in future if the situation calls for it.
