Of One Blood (1902-1903) is a novel by Pauline E. Hopkins. Recognized as one of the earliest works of science fiction by an African American writer, Of One Blood was originally published in The Colored American Magazine, America's first monthly periodical covering African American arts and culture. Combining themes of racial identity and passing within a genre-blending narrative of Gothic horror and the occult, Hopkins weaves a masterful tale of conspiracy, a lost African kingdom, and murder. Struggling with the mental and financial pressures of medical school, Reuel Briggs—a Black man who

passes as white—decides to take a night off in order to attend a local concert. There, he sees the singer Dianthe Lusk, a beautiful woman who possess a mysterious aura. The next day, Reuel is called to assist at the scene of a train accident. There, he chances upon Dianthe, who has sustained a blow to the head. Using an experimental form of mesmerism, Reuel brings her back to life, but she seems to be suffering from near total amnesia. After nursing her back to health with the help of his best friend Aubrey, Reuel finds her a place to stay in Boston. Hoping to marry her, he offers to embark on an archaeological expedition organized by Aubrey, who claims to have discovered a lost Ethiopian kingdom. As the story

unfolds, redemption turns to betrayal, best friends become sworn enemies, and a secret from the distant past threatens to change Reuel's life forever. With this thrilling tale of race, adventure, and mystery, Hopkins proves herself as a true pioneer of American literature, a woman whose talent and principles afforded her the vision necessary for illuminating the injustices of life in a nation founded on slavery and genocide. With a beautifully designed cover and professionally typeset manuscript, this edition of Pauline E. Hopkins' *Of One Blood* is a classic work of African American literature reimagined for modern readers.

Dr. Perkins' final manifesto on race, faith, and reconciliation We are living in historic times. Not since the civil rights movement of the 60s has our country been this vigorously engaged in the reconciliation conversation. There is a great opportunity right now for culture to change, to be a more perfect union. However, it cannot be done without the church, because the faith of the people is more powerful than any law government can enact. The church is the heart and moral compass of a nation. To turn a country away from God, you must sideline the church. To turn a nation to God, the church must turn first. Racism won't end in America until the church is reconciled first. Then—and only then—can it

spiritually and morally lead the way. Dr. John M. Perkins is a leading civil rights activist today. He grew up in a Mississippi sharecropping family, was an early pioneer of the civil rights movement, and has dedicated his life to the cause of racial equality. In this, his crowning work, Dr. Perkins speaks honestly to the church about reconciliation, discipleship, and justice... and what it really takes to live out biblical reconciliation. He offers a call to repentance to both the white church and the black church. He explains how band-aid approaches of the past won't do. And while applauding these starter efforts, he holds that true reconciliation won't happen until we get more intentional and relational. True friendships must

happen, and on every level. This will take the whole church, not just the pastors and staff. The racial reconciliation of our churches and nation won't be done with big campaigns or through mass media. It will come one loving, sacrificial relationship at a time. The gospel and all that it encompasses has always traveled best relationally. We have much to learn from each other and each have unique poverties that can only be filled by one another. The way forward is to become "wounded healers" who bandage each other up as we discover what the family of God really looks like. Real relationships, sacrificial love between actual people, is the way forward. Nothing less will do.

and the well-known legend about his death. On April 1, 1950, Drew died after an auto accident in rural North Carolina. Within hours, rumors spread: the man who helped create the first American Red Cross blood bank had bled to death because a whites-only hospital refused to treat him. Drew was in fact treated in the emergency room of the small, segregated Alamance General Hospital. Two white surgeons worked hard to save him, but he died after about an hour. In her compelling chronicle of Drew's life and death, Spencie Love shows that in a generic sense, the Drew legend is true: throughout the segregated era, African Americans were turned away at hospital doors, either because the hospitals were whites-only

or because the 'black beds' were full. Love describes the fate of a young black World War II veteran who died after being turned away from Duke Hospital following an auto accident that occurred in the same year and the same county as Drew's. African Americans are shown to have figuratively 'bled to death' at white hands from the time they were first brought to this country as slaves. By preserving their own stories, Love says, they have proven the enduring value of oral history. General Interest/Race Relations

First published in May 1900, the Colored American Magazine provided a pioneering forum for black literary talent previously stifled by lack of encouragement and opportunity. Not only a prolific writer for the journal, Pauline Hopkins also served as one of its powerful editorial forces. This volume of her magazine novels, which appeared serially in the journal between March 1901 and November 1903, reveals Hopkins' commitment to fiction as a vehicle for social change. She weaves important political themes into the narrative formulas of nineteenth-

century dime-store novels and story papers, which emphasize suspense, action, complex plotting, multiple and false identities, and the use of disguise. Offering both instruction and entertainment, Hopkins' novels also expose the limitations of popular American narrative forms when telling the stories of black characters.
