Reveals the personal experiences of those who adopted the Rastafari religion in the 1950s to 1970s. This title explores the identity development of the religion, demonstrating how shifts in the movement's identity have led some of the elder Rastafari to adopt, embrace, and internalize Rastafari and Blackness as central to their concept of self.

In this progression, which the author describes as the unfolding of the hedonistic potential of utopianism, Marxism became China's road to capitalism and consumerism.

Going far beyond the standard imagery of Rasta—ganja, reggae, and dreadlocks—this cultural history offers an uncensored vision of a movement with complex roots and the exceptional journey of a man who taught an enslaved people how to be proud and impose their culture on the world. In the 1920s Leonard Percival Howell and the First Rastas had a revelation concerning the divinity of Haile Selassie, king of Ethiopia, that established the vision for the most popular mystical movement of the 20th century, Rastafarianism. Although jailed, ridiculed, and treated as insane, Howell, also known as the Gong, established a Rasta community of 4,500 members, the first agro-industrial enterprise devoted to producing marijuana. In the late 1950s the community was dispersed, disseminating Rasta teachings throughout the ghettos of the island. A young singer named Bob Marley adopted Howell's message, and through Marley's visions, reggae made its explosion in the music world.

An important center of dancehall reggae performance, sound clashes are contests between rival sound systems: groups of emcees, tune selectors, and sound engineers. In World Clash 1999, held in Brooklyn, Mighty Crown, a Japanese sound system and the only non-Jamaican competitor, stunned the international dancehall community by winning the event. In 2002, the Japanese dancer Junko Kudo became the first non-Jamaican to win Jamaica's National Dancehall Queen Contest. High-profile victories such as these affirmed and invigorated Japan's enthusiasm for dancehall reggae. In *Babylon East*, the anthropologist Marvin D. Sterling traces the history of the Japanese embrace of dancehall reggae and other elements of Jamaican culture, including Rastafari, roots reggae, and dub music. Sterling provides a nuanced ethnographic analysis of the ways that many Japanese involved in reggae as musicians and dancers, and those deeply engaged with Rastafari as a spiritual practice, seek to reimagine their lives through Jamaican culture. He considers Japanese performances and representations of Jamaican culture in clubs, competitions, and festivals; on websites; and in song lyrics, music videos, reggae magazines, travel writing, and fiction. He illuminates issues of race, ethnicity, gender, sexuality, and class as he discusses topics ranging from the cultural capital that Japanese dancehall artists amass by immersing themselves in dancehall culture in Jamaica, New York, and England, to the use of Rastafari as a means of critiquing class difference, consumerism, and the colonial pasts of the West and Japan. Encompassing the reactions of Jamaica's artists to Japanese appropriations of Jamaican culture, as well as the relative positions of Jamaica and Japan in the world economy, *Babylon East* is a rare ethnographic account of Afro-Asian cultural exchange and global discourses of blackness beyond the African diaspora.

When we think of Ethiopia we tend to think in cliches: Solomon and the Queen of Sheba, the Falasha Jews, the epic reign of Emperor Haile Selassie, the Communist Revolution, famine and civil war. Among the countries of Africa it has a high profile yet is poorly known. However all cliches contain within them a kernel of truth, and occlude much more. Today's Ethiopia (and its painfully liberated sister state of

Eritrea) are largely obscured by these mythical views and a secondary literature that is partial or propagandist. Moreover there have been few attempts to offer readers a comprehensive overview of the country's recent history, politics and culture that goes beyond the usual guidebook fare. *Understanding Contemporary Ethiopia* seeks to do just that, presenting a measured, detailed and systematic analysis of the main features of this unique country, now building on the foundations of a magical and tumultuous past as it struggles to emerge in the modern world on its own terms.

Rastafari is one of the most influential Pan-African movements that has ever existed. Since its humble beginnings in the small island of Jamaica in the 1930s, Rastafari has grown to attract millions of followers around the world. But there was a time when Rastafarians were persecuted across Jamaica by their fellow countrymen. In this book, you will discover how Rastafari has triumphed over adversity by going from being the most oppressed group of people in Jamaica; to being a powerful force of liberation for black people around the world. The author of this book Makonnen Sankofa, highlights the key elements of the Rastafari Movement. The book includes topics such as: the black liberation theology of Rastafari, how Rastafari originated, the link between Marcus Garvey and Rastafari, the legacy of Haile Selassie I, the presence of Rastafari in England, and the influence of Rastafari on Reggae music.

*Moving Beyond Borders* is the first book-length history of Black health care workers in Canada, delving into the experiences of thirty-five postwar-era nurses who were born in Canada or who immigrated from the Caribbean either through Britain or directly to Canada. Karen Flynn examines the shaping of these women's stories from their childhoods through to their roles as professionals and community activists. Flynn interweaves oral histories with archival sources to show how these women's lives were shaped by their experiences of migration, professional training, and family life. Theoretical analyses from postcolonial, gender, and diasporic Black Studies serve to highlight the multiple subjectivities operating within these women's lives. By presenting a collective biography of identity formation, *Moving Beyond Borders* reveals the extraordinary complexity of Black women's history.
