

The New Agilent 1290 Infinity II Lc

Eventually, you will totally discover a supplementary experience and carrying out by spending more cash. yet when? realize you undertake that you require to get those all needs taking into consideration having significantly cash? Why don't you try to get something basic in the beginning? That's something that will guide you to comprehend even more a propos the globe, experience, some places. later than history, amusement, and a lot more?

It is your very own period to perform reviewing habit. in the course of guides you could enjoy now is the new agilent 1290 infinity ii lc below.

The 1290 Infinity II LC System is an ultra-high performance LC that has market-leading sample capacity and is designed for the lowest dispersion for the most challenging ultra-HPLC experiments. The 1290 Infinity II LC system is designed to be both a HPLC and high-end UHPLC system in a single flow path, giving you robust and excellent performance no matter what application you are running while seamlessly integrating into your existing laboratory environment.

UHPLC. Agilent 1290 Infinity II LC System | Agilent
The 1290 Infinity II Preparative LC System is designed for the purification laboratory that needs increased daily throughput by offering automated sample injection and fraction collection, smooth control of LC valves, and flexible access to up to four analytical columns and six preparative columns. Easily exchangeable pump heads enable delivery of flow rates of up to 200 mL/min, making the system ideally suited for both analytical scouting columns and preparative columns with internal ...

Agilent 1290 Infinity II LC System by Agilent Technologies. Seals of Quality recognize products that consistently receive multiple positive reviews on SelectScience® and are designed to assist scientists in making purchasing decisions. The 1290 Infinity II LC System is an ultra-high performance LC that has market-leading sample capacity and is designed for the lowest dispersion for the most challenging ultra-HPLC experiments.

Agilent 1290 Infinity II LC System - SelectScience

Agilent is a leader in life sciences, diagnostics and applied chemical markets. The company provides laboratories worldwide with instruments, services, consumables, applications and expertise, enabling customers to gain the insights they seek. Agilent's expertise and trusted collaboration give them the highest confidence in our solutions.

The new Agilent 1290 Infinity II LC

The 1290 Infinity LC power range allows you to run any HPLC and UHPLC method. The Agilent InletWeaver guarantees highest mixing efficiency before the mobile phase enters the pump head. Active damping combines innovative pump engineering with tuning algorithms embedded in the firmware for reduced ripples and associated UV noise.
